DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim contradicts the structure of claim 9 on which it depends. It appears that there is no room for the stabilizing element in the claim and the structure which by its dependance includes the claim 9 structure is not definite.

Allowable Subject Matter

Claims 9-24 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to show or fairly suggest a piezoelectric element which is abutted by intermediate layers which in turn are abutted by stabilizing elements, all within a housing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
